

Hi Everyone

I have done the draw for the two weeks of grading and this is now up on the website. I have tried where possible to accommodate all requests however in some cases this just wasn't possible.

With 82 teams in this season and to ensure this could be run across 2 nights, I have had to move the open girls grade to a Thursday night. This will mean no girls teams will play on a Wednesday night. As advised on the registration form, some changes were likely to happen due to an increase in entries.

If you have any major concerns, please let me know prior to Tuesday morning so I can look into it for you. As you can appreciate, changing the draw on the scheduled game day is disrupting for all and especially the players.

At this stage I have not separated the u15 Boys category and I am also looking into separating the open boys category dependent on numbers. The development grades for these competitions will NOT qualify for GABT.

Looking forward to a fantastic season.
