1. MyNetball Information

MyNetball is replacing NMAS as the new online system to record member details, create draws, produce detailed reports and host websites.

1.1 How to use this manual

This manual is a detailed document created to support the Quick Reference Guides (QRG) and the help menu's within the system. While in mynetball there are different menu modes, headings & items, these will be referred to throughout the manual and the QRG, as below.

Menu Mode	Menu Heading	Menu Item
Organisation	Organisation	Details

1.2 Menu Modes Explained

Depending on your level of access, you will be able to see different menu modes. Although some tasks can be completed in more than one place, mode or menu and the options will vary.

- **Organisation** - functions related to user maintenance and organisation details
- **Competition Management** - functions relating to the setup and management of a competition
- **Competition Participation** – functions relating to participation in a competition
- **Website (SportzVault)** - relating to managing the setup and content of the website

Typically, Associations will have access to all modes and clubs will have access to Organisation, Competition Participation and Website.

1.3 User Roles Explained

SYSTEM ADMIN	Access to high level system administration.
SITE MANAGER	Higher level website and competition related maintenance which is typically related to 'setup' or 'configuration' tasks.
USER MANAGER	Access to create and maintain other users. Warning – any user who has this role can effectively grant themselves any other role.
CONTENT MANAGER	Website content related maintenance (eg. Create & maintain Html content, home page, news, events, slideshow galleries).
RESULTS MANAGER	Competition results related maintenance (eg. Clubs : results & scores update, associations : match confirmation, exception reports etc).
ADMINISTER CHILD	A user within an organization which manages competitions between your 'child' organizations can administer directly without requiring a separate login to that club.
EMAIL SENDER	Sending of email messages.
SMS SENDER	Sending of SMS messages & ordering SMS credits.
FINANCIAL MANAGER	Access to tasks relating to financial information (eg. Payments/subscriptions made by players or other people in the system).
UMPIRE MANAGER	Umpire related tasks
PERSON MANAGER	Creation and editing person records

1.4 Person roles and sub roles explained

Each person that exists in the system is added as a certain role depending on the relationship they have with netball i.e. a coach would have a coach role, a player would have a player role, an office bearer member would have an office bearer role. Each role also has a sub role i.e. senior coach, junior coach, president, secretary etc.

ROLES AND REGISTRATION TYPES ARE NOT RELATED!

Roles are important when allocating players to teams, creating your office bearer list, allocating coaches and managers to teams and allocating umpires to games. If the person does not have the relevant role they will not appear on the list to be selected.

NOTE: People who have come across from NMAS will have been assigned a role, however these may not be entirely accurate so will need to be checked. Some people may also have a record but NO ROLE in the system.

Role	Sub role

For Privacy reasons, you cannot edit this record for 5 days, however you are able to register the player and select them on a team.

Clearances – moving a player from one association to another OR moving from one club to another OR one club to another association, does need authorisation, and is referred to in MyNetball as a clearance.
