

# **Macarthur Rams Women**

## **Philosophy**

MRW offers a positive learning environment designed to foster in players a love of football and a desire to reach their full potential. The players will learn how to play the game in conjunction with the national curriculum and within this context learning at it's best must be purposeful, enjoyable and challenging. The coaching staff at MRW is committed to creating a culture of football excellence, designed to develop the whole person by meeting the mental and physical needs of each player.
