SPORTS LEGACY

The Theme of the Sports Legacy is Sports Evolvment: Timeline and History in the past Fifty Years.

Our Aim

Celebrating Palau sports in the past to move the present, and to inspire the future in all that we do whether it may be sports or any other life's commitment

Objectives

To inaugurate and display Palau sports history: its past, present, and its future through our youth and sports life for inspiration, challenge, teamwork, joy in sports efforts, fair play, nationalism, respect of each other unity, friendship, tolerance, peace, individualism, excellence, and to see the faces & life of our youth and our people through sports moments. To preserved and protect the Sports History and Heritage. To promote and educate sports for all and Olympics Awareness. The sports legacy of displaying photos, medals and history of sports in Palau – inspires us and remind ourselves of what sports here at home relates to our social and cultural values.

Sport is for Character

Sports can build character by educating and creating the opportunities for young people to develop the values of team work, dedication, honesty, courage, and fairness. It tests the willingness to try, to fall short and to try again. It helps people to be the best they can be.

Sport is for Health

Sport and games characterized by frequent high quality physical activity can help build healthy people. It is useful in promoting enhancing health habits and in combating disease. At the very center of sport is a commitment to sport as fun. Sport can bring joy and uplift the human spirit. It can help people understand and enjoy being human.

It is through these project and display of our own sport heritage and legacy, that we hope, we can inspire all of us and our youth to continue to strengthen our values in our everyday lives as in the values of sports – Building better characters of ourselves and our young people through sport values of dedication, teamwork, honesty, courage, and fairness and many other great values through sport.
