Georgetown Legend

**"Its more than a Game"
Skills, Work Ethics, Attitude for Learning, Goals**

My way of coaching is to relate basketball to life! The way I like to teach children is by giving them basketball situations that they will use in their lives.

Good Attitudes, Hard Work, Discipline, Goal Setting and a Great Work Ethic: They will learn skills that will help their individual and team games, but I think the biggest thing that these children will take away with them, is the mind-frame that hard work will create success no matter what you apply it too.
