

Quantum Leap 1194 for sale

Don't miss this rare opportunity to own the 'best Minnow in the country'

Quantum Leap was the 2014 National and Victorian State Champion boat, and is of immaculate quality in every respect, built and designed without compromise.

Second Generation, lighter, stiffer YMS hull

Quantum Leap is a 'second generation', all fibreglass foam sandwich YMS hull with some significant improvements on the first generation boats ie lighter weight (on minimum), a thicker/stiffer floor along with some cosmetic tweaks and modifications.

Quality Protection

Significant investment made in top quality and custom fitted YMS trolley (moulded to hull), complete wrap around boat cover and foil & rudder stock covers in order to best protect the condition and finish of foils, rudder stock and hull/deck. This equates to an investment in preventative maintenance and overall investment protection.

Meticulous fit-out

Custom padded hiking straps, friction ring vang system, gooseneck attachment with no holes in the mast, carbon tiller extension, tight mast step fit, forward shroud chainplate positions, no metal hangers on boom for vang or mainsheet blocks, all dyneema ropes etc, etc

Track Record

Tuned and set-up, ready to race, just step in and go fast. Of the 5 major regattas the boat has sailed in, it has placed first four times including winning all but one heat of the States.

Sail Melbourne: 2nd

2014 Nationals: 1st

Lidgett Trophy: 1st

2014 Victorian States: 1st

Victorian Youth Championships: 1st

What more can I say? If you want the best minnow in the country – don't miss out!

Price: \$5,300
