

Zodiac – 4.7 Pro Rigid Inflatable Boat

A 2004 model Australian built hull, which has the stronger lay up and will carve through any sea conditions. Original tubes in perfect condition. Powered by a 2004 Mercury 60 hp, which is serviced every year irrespective of hours used. Doesn't miss a beat and will push this boat along in excess of 30 knots. Two stainless steel props, one 3 blade and one 4 blade. Two covers, one fitted canvas and a second heavy duty waterproof cover to keep the rain and dirt off the canvas cover. Equipment includes an Icom VHF radio, Lowrance fishfinder, Lowrance GPS chartplotter, Bimini top (not used in the last 6 years), full safety gear, pump, fenders etc. Dunbier drive on trailer, recently refurbished and serviced. We have used this boat for watching our kids through junior sailing years and coaching, which means most of the engine hours have been at idle or low speed. The coaching is no longer appreciated, thus the boat is not being used as much and should be sold. An ideal boat for sailing coaching, diving, or just getting out on the water.

Asking \$12,500 ono
