Eastern Ranges prides itself on developing players for the future. Be part of this exciting opportunity to assist a young aspiring player to become a better footballer, a better leader in the community and a role model to his/her peers.

This unique Player Sponsorship package helps the Eastern Ranges to potentially prepare the next AFL star. It is designed to assist players in achieving the Ranges goal of being dedicated and committed.

To achieve this, each player needs the support of his/her family, coaching staff and teammates. The added support of an interested individual or company that wishes to support the aspiring young person greatly assists them in following their dream.

Players need a high level of dedication and commitment to continually improve and develop their skills to compete at the TAC Cup level, and for some to ultimately be selected in the AFL National Draft. By sponsoring one young player you will be greatly assisting both their football and personal development into mature young adults.

The financial assistance the player will receive will help throughout his/her time at the Eastern Ranges and your business will be recognised for your contribution. The business will also receive fantastic benefits included in the package.

## 2016 AFL DRAFT PICKS

Since the TAC Cup Competition began in 1992, the Eastern Ranges has helped many footballers in the region. The Eastern Ranges focus is to improve players as footballers and develop them to become leaders in the local community. Apart from those that have achieved playing at the AFL level, many other players have become respected captains, coaches and administrators in community football.

The Eastern Ranges has successfully been able to prepare these young men and women for the challenges they will face now and into the future, from the changing dynamics with their family and friends, their career and education choice, drug and alcohol awareness, road and driver safety education, dietary and fitness advice, injury management and rehabilitation along with helping them with the mental and psychological component of their development. The Eastern Ranges works closely with assisting each player with short and long term goals, coping with disappointment and perceived failure, as well as dealing with the trappings and pressures of success.

In order to deliver these programs we look for the generosity of individuals and businesses that recognise the positive impact and influence of the Eastern Ranges.
