

## Live Score - Get the most out of your games

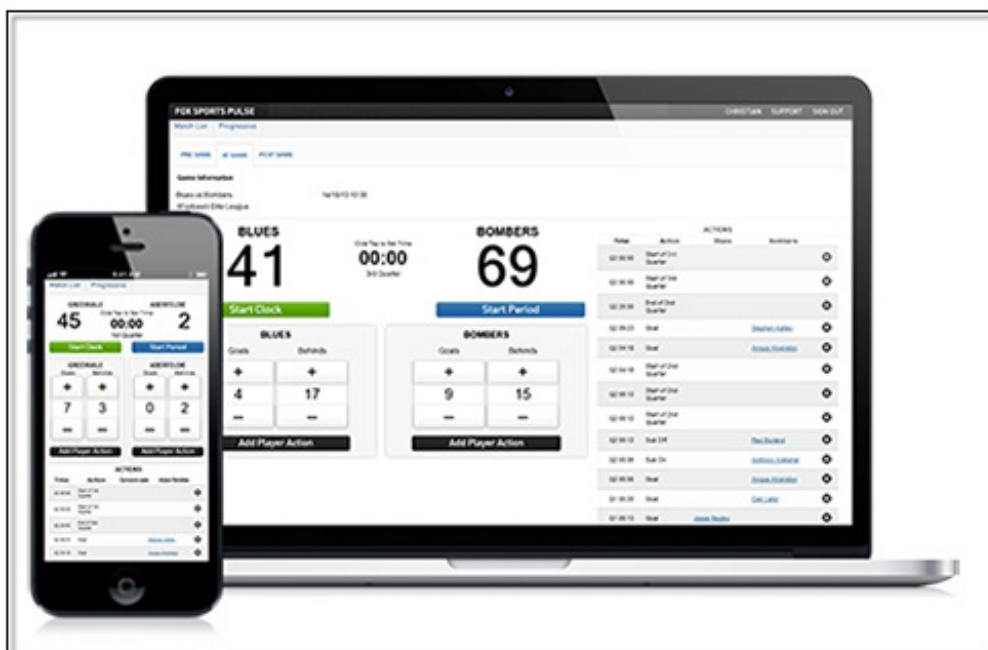

*Last Modified on 18/01/2016 11:34 am AEDT*

LIVE SCORE is the perfect way to keep your members updated on all the on-field action. It also makes match officiating easier for your volunteers and administrators! What's more - LIVE SCORE is FREE for TFA clubs and affiliates.

As the name suggests, LIVE SCORE displays your match scores in real time on your website.

LIVE SCORE has two main benefits. Firstly, it engages your members by providing them with a level of functionality that mimics the professional leagues and competitions. It helps strengthen your digital relationship with your members and provide an excellent level of service to the end user.

The second (and perhaps more important!) benefit of LIVE SCORE is the time it saves your administrators or volunteers. They can follow your games LIVE and collect game scores in real time. This means there is no need to sort through game data or re-enter game information when it comes to tallying your results.

For more information on the LIVE SCORE system and how to get it set up click [here](#).
