## MEDIA RELEASE

### AFL WESTERN DISTRICT FINALISES TOTAL TEAM POINTS

**The AFL Western District Commission has set the 2019 Total Team Points for senior football teams playing in Western District.**

There has been no change to Total Team Points allocations since the first release of points for the 2019 season on January 30 for teams in the Hampden, Warrnambool and District, South West and Mininera Leagues.

AFL Western District Commission Chairman Gerard Lucas said “The Commission considered the objectives of the Player Points System Policy when determining Total Team Points for our region. We believe the points settled on for 2019 season will improve the evenness and equalisation of each competition, which are key objectives of the policy.

We want the competitions to be even and fair and ideally, players and supporters will go to a match on a Saturday afternoon with their team having a chance of winning”.

Within the policy of the Player Points System Policy, the AFL Western District Commission carefully considered a number of applications for points reassessment from Clubs. Information supplied included team lists, list of players departing the club, list of new players, junior lists, ABS data and other supporting evidence.

The second window for Clubs to apply for additional Total Team Points has now closed and there is no further opportunity for clubs to apply for additional points for the 2019 season.

The next step for clubs under the Player Points System Policy is to submit their Player Points Self Audit Form to AFL Western District for review prior to the start of the season.
