MINNOW 1203

The last ever YMS Minnow...

It's time for Maverick to re-engage at the top of the Minnow fleet!

A one-off custom build by Brett Young from the discontinued YMS mold, Maverick is the least used, stiffest and lightest YMS Minnow hull ever constructed. Coupled with the famous YMS foils, near new Keeley anodised spars & 2 pristine Hooper sails plus training sail, Maverick is the complete package for a Minnow sailor aiming to win major events.

With a custom beach dolly, mast up cover, faux carbon fibre graphic wrap & recent cosmetic touch up from Martin Sly, Maverick is ready for combat & just waiting to delight a new top gun...

\$4,750 – located Mornington Peninsula.
