 - The playing fields for U6 to U11 MiniRoos games are marked with cones, domes or line marking paint per FFA MiniRoos regulations.
If movable goals are used, they are to be set up following the procedures in the User Agreement with Wingecarribee Shire Council. Refer to <https://footballnsw.com.au/resources> for information on goalpost safety.
 - The playing fields for U12 to All Age competitions are marked as per directions in the FIFA Laws of the Game to international standards, including corner flags and nets.

Only three (3) team officials and a maximum of five (5) substitutes are permitted to be in the technical area. The technical areas should not be any closer than 1 metre from the touchline and extend 1 metre either side of the designated seating area.
 - A recognisable spectator viewing area separate from the playing area is to be established. Spectator areas must be 2m from the field sidelines and 5m from the technical areas.
 - There is a designated chair close to the halfway line on the opposite side of the field to the technical area for players to sit on for a period of temporary dismissal from the field of play.

- (D) If the appointed referee decides not to proceed to officiate a match at a playing field because they deem the playing field setup does not meet the requirements of Rule 14 (B), the 'host venue club' shall be granted up to 10 minutes after the scheduled match starting time to rectify the field set up deficiencies identified by the referee. If the 'host venue club' cannot, or is unwilling, to rectify any field set up deficiencies within the time permitted by this Rule, the 'host venue club' will be fined as per Rule 19 (H), the match deemed to be abandoned and rescheduled at a later date.
- (E) Should the appointed referee decide that the appointed ground is unfit for play per Rule 14 (B), the 'host venue club' Ground Official is empowered to move the game to be played onto an alternative, complying field at the same venue, provided that moving the game does not conflict with any other fixture.
- (F) It is recommended that each team have a first aid kit available at each of their matches.
- (G) No person is to stand or sit in the area 5m off the field of play beyond the goal line. If the ground has a permanent fixed fence situated behind the goal line, then this will be the allowable distance that persons will be permitted to stand. The referee and/or Ground Officials are empowered to clear this area of all persons.
- (H) The HSA Board may at times require Clubs to amend the way grounds are prepared and operated when hosting competition games and MiniRoos.

In any instance where a team(s) decide(s) not to play because of rain where the pitch on which the match is scheduled to be played (or adjoining pitch) has not been closed, the defaulting team(s) shall be considered as forfeiting without notice and shall be liable for any match official fees (if officials were appointed) together with the prescribed fines, (see Rule 20).

(B) Storming or Imminent Storming Conditions:

- When lightning is imminent team officials, referees and host Clubs are to observe the Football NSW Lightning Policy 30/30 Guideline below-
 - (i) Stop play if the time between seeing a lightning flash and hearing thunder is less than 30 seconds, and immediately seek safety under appropriate shelter.
 - (ii) Do not resume play until at least 30 minutes has passed since the last thunder was heard.
- In instances where there is hail, flying debris or debris on the pitch (fallen branches), referees and host Clubs are to use common sense to minimise the risk of injury or death to players, coaches and spectators.

(C) Where matches affected involve MiniRoos teams (U6 – U11) cancelled matches will not be rescheduled.

## Sports TG Data Entry Rules

### U12s to All Age

- (A) Match results for all competition and Cup matches, U12s – All Age, are to be entered into the Sports TG (STG) Results module.
- (B) Initial access for Clubs to the STG Results module will be provided by the HSA Director of Records, [dir.records@hsa.org.au](mailto:dir.records@hsa.org.au). Club Recorders, (or nominated club officials), must have a Sports TG Passport, (register at <https://passport.sportstg.com>).
- (C) Once given access, the Club Recorder (or nominated Club official) can sign in and enter results at <https://passport.sportstg.com>. The data can also be entered by accessing STG from “Fixtures and Results” on the HSA website, (only available on the day of the match).
- (D) The HOME team of the two teams that played in any U12s to All Age competition/cup match is required to enter the match result into the STG Results module.
- (E) All competition/cup match results must be entered into the STG results module by **8.00pm** the same day of each match. For matches played on a weeknight all data has to be in Sports TG by **8.00pm** the following night.
- (F) Each team is required to enter the names of those who played, shirt numbers, goals scored and any Yellow or Red card offences exactly as written on the actual team sheet for their own team after each match. This data for each team must be entered into the STG Results module by **11.00pm** the Sunday after each competition match.
- (G) The STG system will automatically lock out access to update the weekend’s match records at midnight, Sunday of each week. Clubs that are locked out but yet to update all their match details as required will have to lodge a request for access to the HSA Director of Records [dir.records@hsa.org.au](mailto:dir.records@hsa.org.au) by 11.00pm Tuesday after the match. There will be an administration fee of \$5 (incl. GST) applied for each request on a per match basis.
- (H) Requests lodged after 11.00pm Tuesday following the match will incur a \$20 (incl. GST) administration fee on a per match basis.
- (I) If the data for any U12s to AA match remains outstanding in the STG system at 3.00pm on the Friday after the match was played, HSA will deem that the offending team forfeited the game and update the results table accordingly. If both teams have not entered the data, the result will be a forfeit by both teams and applicable forfeit fines applied to both teams.
- (J) A fine of \$20 per week will be applied after the first week for each week that the data is not entered into the STG system. If the data entry into the STG system remains outstanding for more than four (4) weeks after the match, the team will be disqualified from the competition.
- (K) Teams that dispute correctness of the opponent’s team data entered into STG when compared to the actual team sheet will have until 11pm the Monday after each match to lodge a protest with the HSA Director of Records at [dir.records@hsa.org.au](mailto:dir.records@hsa.org.au) (or 24 hrs after the data is actually entered in the case that data entry occurs after the data entry lock out time on Sunday night).

## **The Role of the Ground Official**

### **The Ground Official should:**

- Wear a high-visibility 'Officials' vest to identify yourself.
- Make sure your name is on the team sheet.
- Assist in the control of the spectators.
- Assist the match officials in any way when requested.
- Try to ensure the HSA Codes of Conduct are adhered to.
- Ensure the safety of players.
- Ensure the safety of spectators.
- Ensure the safety of match officials.
- Complete and submit relevant reports as directed by the HSA Board.
- Assist with complaints.
- At all Junior matches – ask people drinking alcohol to stop or leave the venue to drink (the greater distance of beyond the venue fence line or 30m from the playing field /amenities).

### **What a Ground Official Does NOT do: -**

- Try to control angry spectators.
- Get into situations where injury may occur.
- Get involved in dangerous situations.

### **Helpful hints:**

- By the time a Ground Official is required, a situation is usually inflamed. Try to be aware of the feelings of the crowd and react early to stop poor behaviour before it escalates.
- When addressing spectators and volunteers remind them of the damage they do to their Club's reputation and the reputation of football.
- Make yourself aware of the Codes of Conduct.
- Report any incident to your Club Secretary on the day of the incident and if necessary complete the prescribed form "Ground Official Incident Report" (HSA 007).
- Ground Officials are not the police. Some behaviour, such as drinking alcohol, is against the Law and Council regulations, not just our rules. Whilst we ask you remind anyone drinking that it is illegal to do so, we do not expect you to make them stop. If you think their behaviour is declining due to alcohol consumption, call the police.
- Stay safe – try to keep yourself safe.

### **Complaints:**

- People who complain do so because they think they have a genuine problem. Not dealing with the original issue will likely manifest itself later and can easily lead to Sport Rage.
- Offer the prescribed form "Grievance/Protest Notification" (HSA 005) to people to write any complaint or perceived problem. Refer complaints to the correct person and tell the complainant that their complaint will be dealt with.

## Team demerit points

- (A) At the beginning of the season all teams will start with zero (0) team demerit points.
- (B) Nominated offences carry demerit points which teams can accumulate throughout the season (see table below).

This will be awarded to the highest goal scorer in each grade.

(C) **Player of The Year Award**

## **Wet Weather: Guidelines for Assessing Playing Fields**

The following measures are to be used as a guide to assist clubs and referees in deciding whether grounds are not fit for safe play:

### **1. Surface water:**

Competition matches must be cancelled if there is substantial surface water visible on the field. The only exception to this would be if the area affected was small (less than 2 to 5m<sup>2</sup>), in a low usage/wear area, the rest of the ground was firm, and no other issues such as ground softness and poor grass cover were evident. Surface water means that the ground has reached saturation point and will be damaged very quickly if played on.

### **2. Ground softness:**

Competition matches must be cancelled if there is any sinking into the field when walking on it and it does not bounce back or, if when standing still/walking, water rises to the surface. The only exception to this would be if the only area affected was small (less than 2 to 5m<sup>2</sup>), in a low usage/wear area and the rest of the field was firm (and poor grass cover was not an additional issue.) Water rising to the surface when walking on it means that the ground has reached saturation point and will be damaged very quickly if played on.

### **3. Amount of rainfall:**

Rainfall leading into match day should be used to guide decisions. If it has rained heavily or consistently leading up to match day, then this should aid the decision to be made. Some grounds will take rain all week and be fine on the weekend while other grounds will have no rain all week, rain the night before an event and will need to be cancelled. Clubs and referees should take into consideration the rainfall during the week, the night before, the forecast for match day and, where applicable, the day after when making decisions.

### **4. Soil profile and drainage:**

Some fields naturally drain better than others; this has to do with the soil profile below the surface. Sand based fields or deep coal wash drain quicker and more effectively than those on natural ground. Clubs and referees should have a good idea of the drainage and amount of rainfall these grounds can take, and this should be considered when making decisions.

### **5. Grass cover:**

During the winter season grass cover can often get below 80% and be fine for play during dry weather. However, during wet weather, if overall grass cover is below 80% then this ground is likely to wear more substantially if played on. If a decision is made to play on wet ground with low grass cover, then this may cause irreparable damage to the ground.

### **6. Amount of activity:**

Once all the above is assessed final consideration is to be given to how many matches the field will safely be able to host on match day.

## **U12/13 Twenty Five Metre Rule**

The 25 metre rule will be implemented in the U12 and U13 age grades of the HSA Winter competition as follows:

- (A) Goal kicks will be taken from anywhere within the 5.5 metre area (6 yard box) and defending players will be required to retreat at least twenty-five (25) metres to allow the attacking team to build up play out of the back third.
- (B) An attacking player will not be able to encroach inside the 25 metre area until a defending player has had his/her first touch of the ball once the whole of the ball has vacated the 18yrd box.
- (C) If an attacking player encroaches prior to the defending player having his/her first touch then the goal kick will be retaken.
- (D) The 25 metre line must be marked by the Home Club via placement of a cone or pole to the side of both touch lines, 25 metres from the goal line at both ends of the field.
- (E) If in the opinion of the Referee, the 25 metre rule is being utilised to waste time by either the attacking or defending team, the players guilty of the perceived time wasting will be cautioned.

The Minor Premier of the AAM PL 1 competition for the previous Winter Competition will represent HSA in the FFA Cup.
