22. Spectators: All spectators are to view all Basketball games from the old mezzanine floor upstairs they are not allowed to sit on the team's bench during a game. The stairs are to the left of the main entry into the North Shore Events Centre.

Reasons for this area follow:

- 22.1 To enhance and maintain a quality programme for players, coaches and supporters.
- 22.2 To maintain and improve safety for players, officials and spectators.
- 22.3 To eliminate negative sideline comments to officials and players.
- 22.4 To enable referees to move freely around the side of the court safely without interference.
- 22.5 To protect players, officials and spectators from injury due to teams warming up around the courts.
- 22.6 To prevent children from climbing on equipment and causing harm to themselves and damaging equipment.
- 22.7 To enable venue controllers to do their job more effectively and efficiently.
- 22.8 To stop children from bouncing balls in the foyer while North Shore Events Centre staff are working.
- 22.9 To eliminate disputes regarding the incorrect scoring of games, due to the score bench personnel being distracted or not being able to see the game.
- 22.10 To create a more orderly and controlled environment for all involved.
- 22.11 For clearer and better spectator viewing from upstairs.

**All QF, Semi-final and Grand Final games:** If the game concludes with a draw a “sudden death” shoot out will be taken with the 5 players who were on the court playing participating. Each team will line up at the free throw line. Teams will alternate shots until all five players have shot. If the score remains tied, the first member to shoot from each team will shoot in a “sudden death” scenario. If both make their shots (or both miss), the next player from each team will shoot in a sudden death scenario again. This process will be repeated until there is a winner.

## Zone Defense Rule CRITERIA

As there is a general acceptance that the consistent use of zone defenses in the younger age groups adversely affects the development of both defensive and offensive skills in younger athletes. The use of zone defenses in the keyhole is banned at all BBNZ Under 13, Under 15 Tournaments and the Junior Secondary Schools Tournament (per BBNZ Internal Regulations). Note that this does not include full court,  $\frac{3}{4}$  court or  $\frac{1}{2}$  court zone presses. Basic rule of thumb is that when the ball is past the center jump circle, the defensive team must be in man to man. Below is the full definition.

### Definitions

#### Zone Defense

As a team, players defending specific areas of the court (and opponents in that area) versus marking individual players.

#### Split Line

An imaginary line that bisects the court length wise.

#### Strong Side

The side of the court that the ball is on.

#### Weak Side

The opposite side of the court from where the ball is located.

### Interpretation of Zone Defense

For the purposes of interpreting how a zone defense is determined:

A player is considered to be in man-to-man defense when the player, who is on the weak side, does not cross the split line into the strong side of the court.

A player is permitted to cross the split line to double-team or to stop ball penetration.

A player is considered to be in zone defense when the player, who is on the weak side, crosses the split line, on to the strong side and remains there regardless of their player's movement on the court.

### **Zone Buster and Process**

1. If a coach feels that their opponent is playing a zone defense, they approach the person designated as the Zone Buster at that tournament/Competition.
2. The Zone Buster will watch the play and determine if a zone is in fact being played.
3. If the Zone Buster believes a zone is being played, they will instruct the referees to issue a warning to the coach of the team playing a zone in the first instance.
4. Further violations will result in the Zone Buster instructing the referees to call a technical foul against the coach.
