BROKEN HILL
TRAIL BIKE RIDERS ASSOC.

07.06.2010.

To All Members,

It has been almost 5 months since our son Daniel went missing in the Broken Hill / Silverton area.

My husband David + I were overwhelmed at the support + efforts people from your area went to, to assist in the search for Daniel.

We have returned home to Bendigo confident that the search in the El Dee Station area could not have been carried out more thoroughly.

As I commented on occasion to people who were volunteering in the search for Dan, "THANKYOU" does not begin to express the heartfelt gratitude to all who took part.

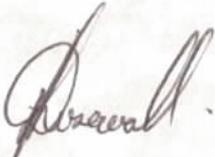

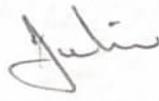

This letter is in particular to say "THANKYOU" to all members of your club who so willingly gave up your own time to participate in searching for our son Daniel.

We realize that trailbike riding is something you all really enjoy, but to have given your time in the Heat!, Dust Storms, (I can still see those of you who were caught + had to take shelter till it passed, returning with only your teeth + the whites of your eyes not covered in Red Dust.) ect

where your own safety was at risk very inspiring.

On returning home we were able to tell our Family + Friends of the efforts you all made + the respect you showed in our circumstance, therefore on behalf of our 3 beautiful daughters + their families, Dan's Partner + all our family + friends "THANKYOU" once again, we will never forget the great effort made by you all for perfect strangers.

We are confident Daniel is still alive + hope it will not be long + we will be able to let all those who helped so willingly know he has been found,
Yours in appreciation,

 
David + Julie Rosewall
+ Family.
