

## **AFLQ**

### **GROUND LIGHTING POLICY**

Refer to the Australian Standards AS2560.2.3 - Guide to Sports Lighting Part 2.3 – Lighting for all Football codes.

AFL Queensland, in accordance with the Australian Standards for sports lighting requires a minimum of 100 lux (luminance) and uniformity (distribution of light) of 0.5 for night football to be played.

NEAFL seniors - minimum lux of 400 and uniformity (distribution of light) of 0.5 are required for night football to be played.

SEQAFL – average of 100 lux illumination and uniformity of 0.5 for club competition and practice matches.

Any club wishing to play football under lights must first supply a letter accompanied by a lighting chart from an accredited lighting company testifying to the strength of the lighting. This must be done for every new season.

Clubs must also take into consideration the lighting of adjacent areas such as change rooms and car parking facilities with particular attention to public safety.
